**External Reference:** ARCH CR 4991  
**Category:** Business Rules  
**Component:** SAFER/CVIEW  
**Synopsis:** Interim Business Rules to Support Data Quality Regarding USDOT Number  
**Status:** Approved  
**Disposition:** [2007-09-24] Approved by FMCSA.  
**Description:** [2007-09-21] Approved by FMCSA

[2007-09-20] Recommended for FMCSA approval by vote of 13-0, with two conditions:

1. These upload rules are guidelines and are not mandatory. Records will NOT be rejected if these guidelines are not followed.

2. These guidelines represent CVISN goals. States should strive to adhere to these guidelines.

[2007-08-24] Discussed at ACCB meeting 2007-08-23. Update to change "registrant USDOT number" to "IRP licensee's USDOT number". Vote at ACCB meeting on 20 September 2007.

[2007-03-21] At the CVISN Deployment Workshop, it was agreed that there should be basic requirements for states uploading data to SAFER as well as for SAFER sending data to states.

State Upload Rules:

- The state should capture the IRP licensee's USDOT number during vehicle registration and provide it at the carrier account level (IRP\_CARRIER\_ID\_NUMBER field) in the T0020 IRP Account Input transaction.
- The state should capture the safety (carrier responsible for safety) USDOT number during vehicle registration and provide it in the SAFETY\_CARRIER field of the T0022 IRP Registration (Cab Card) Input transaction.
- States that do not capture the safety USDOT number during vehicle registration should provide the IRP licensee's USDOT number (IRP\_CARRIER\_ID\_NUMBER field from the T0020 transaction) if available in the SAFETY\_CARRIER field of the T0022 transaction.
